ENGLAND'S DESIGNS.

No Telling What They Are Just at Present.

HER GREAT NAVAL ACTIVITY.

The Situation in the Transvaal Has Improved and the Fitting Out of Her War Vessels Appears Wholly Unnecessary Unless Some Secret Movement Is Contemplated.

LONDON, Jan. 11.—(Copyrighted by the Associated Press)—There is a feeling abroad in London that there are many details of the complication into which the foreign affairs of the empire has been placed, which have not been published, and much speculation is indulged in by the public. So far as official information goes the situation seems to be improved.

The ministry of the naval preparations occupies a large place in the public mind, and the conclusion arrived at by the attentive public after thus thinking it over is that the tremendous activity displayed, not only in the fitting out of the flying squadron, but in the rushing forward of work in the navyyards, arsenals and supply shops for war material, do not appear wholly necessary on account of the condition of relations with Germany. It is also felt that it is difficult to see what point the flying squadron, which together with the existing available squadrons, which it is proposed to join it, will form, it is said, the most powerful fleet of war vessels ever put afloat, is destined.

The situation in the Transvaal is undoubtedly greatly improved, and unless President Kruger has made extortionate demands, such as for the complete independence of his republic and freedom from the suzerainty of Great Britain, and has received the support of Germany in favor of these demands, such a powerful fleet as is being prepared will not be needed at Delagoa bay. In fact, the whole future of South Africa now depends upon the nature of the demands made by President Kruger, whose response to the queen's message, addressed to him in the third person through Colonial Secretary Chamberlain is, to say the least, not effusive. In fact, it virtually declares that the president will hold Dr. Jameson and the other members of his expedition who were taken with him as hostages for the disarmament of Johannesburg, whose time for grace for the surrender of the arms held by the outlanders expired at 6 o'clock last evening. Those of the outlanders who have not yielded their arms at that time are to be excluded from the amnesty to be granted to those who participated in the uprising.

The indemnity demanded by the Transvaal government from the Chartered South Africa company is variously stated at from £500,000 to £2,000,000. The statement circulated here yesterday that the admiralty had decided upon the formation of a second special squadron, created a good deal of excitement when it was announced, but it was later officially denied.

Right Hon. Joseph Chamberlain, secretary of state for the colonies, went to Osborne yesterday and remained there over night. Right Hon. G. J. Goschen, first lord of the admiralty, made a special visit to Portsmouth and inspected the ships of the flying squadron and saw the guns of their armament worked. The workmen at Chatham, Portsmouth and Plymouth worked late last night by electric light for the fitting out of the ships of this squadron. It is expected that those at the Portsmouth dockyard will continue the work of preparation on Sunday.

It is announced that the government has ordered the stores of small arm cartridges to be increased from 60,000,000 to 150,000,000.

All these preparations, of course, mean an enormous outlay of treasure. The wages of workmen alone are £20,000 above the usual expenditures. It is reported that the government, in order to meet this and further naval measures, will present a bill immediately when parliament opens to devote the surplus revenue over the present budget, chiefly arising from the remodeling of the death duties and to the activity in the stock market, and which it is expected will amount to several million pounds, to pay the expenses.

One effect of the present crisis has been to impress Englishmen with a sense of the marvelous diplomatic scent of Paul Kruger, the Boer president. The admiration felt by Englishmen for the South African executive finds abundant expression, even in the face of the sharp rebuke he has administered to their policy and their hearty admiration for Dr. Jameson. Sir Charles Dilke declared in a speech yesterday that President Kruger has few rivals among modern diplomats.

NEW SOURCE OF TROUBLE

It Is Rumored That England Has Bought Delagoa Bay.

LONDON, Jan. 11.—The most important development in the South African situation is the fact that, in spite of all denials, it is now believed in many quarters that there is some truth in the rumors that Great Britain has purchased Delagoa bay from Portugal. If this be the case an entirely new complication will be thrown upon the political situation, and it may turn out to be the real cause for the assembling of such a powerful British fleet as the one which will be anchored off Portland on Tuesday next.

As it is understood that the govern-

ment of the Transvaal has demanded, among other things, that Great Britain forego her right to obtain possession of Delagoa bay, and as Germany may look upon this as a move which will seriously threaten the future of the Transvaal, the situation, if the report is true, will have become more critical.

Courtesies Between Germany and Russia. LONDON, Jan. 11.—A St. Petersburg dispatch to The Times says: "Prince Von Radolin, the German ambassador to St. Petersburg, in returning here, brought another letter from Emperor William to the czar. This frequent exchange of courtesies is much remarked here."

The Feeling in Berlin.

NEW YORK, Jan. 11.—A dispatch to The Herald from Berlin says: In diplomatic circles here it is believed that an amicable solution of the Transvaal question is only a question of days.

The warlike preparations made by England are regarded as a ridiculous demonstration to cover the inevitable check to her policy. The emperor styles them "Ruek-poly."

The precipitate extradition of Dr. Jameson causes surprise here.

The Krenz Zeitung asks against whom are the armaments of England directed, and expresses the opinion that England wishes to divert attention from Africa in order to snap up the Transvaal.

Reformers Arrested.

JOHANNESBURG, Jan. 11.—Twenty-two members of the reform committee, including Colonel Rhodes, brother of Cecil Rhodes, Sir Drummond Dabbar, Mr. Lionel Phillips and Dr. Sauer, were arrested at their club Thursday evening on the charge of high treason, and conveyed under escort to Pretoria. Perfect quiet prevails here.

Disarming Completed.

LONDON, Jan. 11.—The Times has a dispatch from Pretoria which says: "The disarming at Johannesburg has been completed without mishap and the Boer police now patrol the town. The crisis is practically ended, and orders have been issued for all Boer commands to proceed at once to Pretoria."

German War Vessel There.

BERLIN, Jan. 11.—A telegram received here from Lorenzo Marques, Delagoa bay, announces that the German man-of-war Condor has arrived there.

SENSATION AT LOUISVILLE.

Forged Warehouse Receipts Discovered in the Belle of Nelson Failure.

LOUISVILLE, Jan. 11.—The failure of Bartley, Johnson & Company and the Belle of Nelson Distillery company is further complicated by the news that forged warehouse receipts to a large amount have turned up. There has been an over-issue of warehouse receipts, which will amount to probably \$100,000 or more, which has been made within the past 18 months by David Bartley, one of the members of the firm of Bartley, Johnson & Company, and secretary of the Belle of Nelson Distillery company. The revelations have been a surprise to his associates, and it will be some days before the assignee can make any statement about the matter.

Attila Cox, president of the Columbia Finance company, the assignee, was asked for a statement, but declined to make any, but said that as far as the examination of the affairs of the company went, there were certain facts which confirmed the belief that there had been an overissue of receipts, and that on this account, he was making every effort to get at all the facts by an examination of the government accounts of entries in bond, and a comparison of the receipts with these entries. When that comparison is furnished it will be possible to state exactly the condition of these securities.

Information from other sources is to the effect that none of these doubtful receipts have been placed with the trade, but used only as collateral for loans, and that of this collateral not over \$70,000 is held by Louisville parties and \$35,000 in New York and Chicago. The hope is still expressed by the firm that the assets will be sufficient to discharge all liabilities, including these receipts originals and duplicates.

These revelations have been a complete surprise to Colonel Telford, who for two years has given so much attention to his official duties as the head of the board of public safety that he was not familiar with the financial affairs of his company, save in a general way, and the responsibility seems to rest solely with David Bartley, who is now in New York, having left here three days ago.

SEATTLE, Wash., Jan. 11.—Purser McDonald, the second mate and two Japanese seamen from the Strathavis, who left the disabled steamer in an open boat when off Destruction island, and who were believed to have been lost, arrived in port yesterday on the lighthouse tender Columbia, which picked the party up after they reached the island.

Fireman Killed.

CHICAGO, Jan. 11.—William Borst, fireman of passenger train No. 10, on the Council Bluffs division of the Chicago, Milwaukee and St. Paul railway, was killed in a collision between several derailed freightcars and the passenger train at Franklin station last night.

Figuring on Electricity.

SPRINGFIELD, O., Jan. 11.—The Pennsylvania railroad is planning to run the Springfield branch, 19 miles long, with electricity as motive power. Expert Crawford, from Altoona, is figuring on the proposed change.

COUNTY SEAT MOVED

Long Litigation Decided by the Supreme Court.

BIG VICTORY FOR ENGLISH.

Hereafter That Town Will Be the County Seat of Crawford County—Decision of the Fowler Will Case—A Child Smothered to Death by Its Father—Other Indiana State News.

INDIANAPOLIS, Jan. 11.—The supreme court has just decided that the county seat of Crawford county shall be removed from Leavenworth to English. This ends a contest that has extended through many years, and has engendered much bitterness in this southern Indiana county. Several times during the long controversy bloodshed between the factions has been narrowly averted.

Various propositions for the removal from Leavenworth to English have been before the legislatures of the last half dozen years. At the session of 1889 an act was passed which made it possible for the friends of the town of English to succeed.

The proceedings originated before the commissioners of Crawford county, from whose determination of the matter there was an appeal to the circuit court. A change of venue was taken to Washington county, where the circuit court entered a judgment relocating the county seat at English.

The case was argued orally during the last sitting of the court, and so early a decision was not looked for.

English has been going ahead with preparations to become the county seat. A new courthouse is being erected, and other improvements necessary are being made.

The court also affirmed the celebrated Fowler will case from White county. It is held that the will of Moses Fowler devised his real estate in fee simple. Fowler died in 1884, 60 years old. At the time of his death Fowler owned 20,000 acres of land in Benton, Tippecanoe and White counties, and his estate amounted to \$350,000. Fowler and his wife were living apart at the time of his death and his children were the appellants. The litigation has been carried on 10 years.

Gas Giving Out.

INDIANAPOLIS, Jan. 11.—L. R. Leach, the city supervisor of natural gas, in his annual report announces that the gas territory is becoming smaller and that the supply is gradually decreasing. The gas area now embraces the following counties in whole or in part: Blackford, Deatur, Delaware, Grant, Hamilton, Hancock, Henry, Howard, Jay, Madison, Miami, Marion, Rush, Shelby, Tipton, Wabash and Wayne.

Said Nothing About Marrying.

INDIANAPOLIS, Jan. 11.—Ex-President Harrison left for New York yesterday afternoon. His private secretary says that he is going there to consult with other attorneys in the California irrigation cases, thence will go to Washington for the argument in the United States supreme court. His secretary will make no statement concerning the current stories that the ex-president is to marry Mrs. Dimmick.

A Gunshot Wound Ends Fatally.

ELWOOD, Ind., Jan. 11.—Nelson Webb, who was shot in the neck on Christmas day, died last night, after suffering untold agony. The bullet was never extracted as it was behind the nape of the neck, and could not be reached. Webb never recovered consciousness. James Jones, who is charged with the shooting, and is out under \$1,000 bond, has been rearrested, and will be held without bail.

Badly Hurt in a Fall.

FRANKLIN, Ind., Jan. 11.—Mrs. W. B. McCollough was dangerously injured last night at her home on North Water street. She was just starting to church, when she slipped on the ice and fell heavily to the ground, striking the back of her head with great force. Concussion of the brain is feared, though her condition has not been such that an accurate examination can be made.

An Escape From Jail.

LOGANSPORT, Ind., Jan. 11.—Herman Barrons, alias J. P. Harrington, awaiting trial for horse stealing, escaped from jail Thursday evening. He used an iron rod to force off a section of the iron plating, and to punch a hole through the brick wall. The jail is notably weak, and a building of a safer structure has been recommended.

Smothered His Child.

KENTLAND, Ind., Jan. 11.—Albert Tollis, a farmer living nine miles north of here, was brought to this place yesterday and lodged in jail, charged with murdering his 8-months-old child. The infant's crying annoyed him, so he placed his hand over its mouth and smothered it. Popular feeling runs high and violence is feared.

Attempted Suicide.

BRAZIL, Ind., Jan. 11.—Mrs. John H. Moore, wife of a prominent citizen of this place, attempted suicide last night by taking both morphine and chloroform. Her life was saved by hard work. Despondency over the death of two of her children was the cause.

The Deadly Corn Shucker.

PITTSBORO, Ind., Jan. 11.—Daniel Estlin, a farmer, living one and one-half miles north of Brownsburg, lost his left hand in a corn shucker yesterday.

REVIEW OF TRADE.

R. G. Dunn & Company Reports Business Somewhat Retarded.

NEW YORK, Jan. 11.—R. G. Dunn & Company's weekly review of trade says: The new year begins with such uncertainty that business is somewhat retarded. The proposed sale of bonds offers ground for confidence in the future, but no one is able to determine what its earliest effects may be in the money market and for the time it is a cause of hesitation other than hopefulness.

Speculation in products has not been active. Cotton is unchanged, although the receipts for the week have not been very large, but some slackening appears in the foreign demand. Wheat is about 1 cent higher and corn the same, without distinct reason in either case, for the government report, tardily conforming to commercial estimates of some months ago, did not command great confidence. Wheat receipts at western points were almost double last year's, 2,605,702, against 1,305,704 last year, but Atlantic exports were a little larger than last year, flour included, 2,387,936 bushels, against 2,010,756 a year ago. Corn receipts are about a quarter larger than last year, while Atlantic exports are about four times as large.

The industrial situation has not materially changed. There is much hesitation in the iron business, with some advance in Bessemer pig because of the expectation that Connellsville coke and lake ore will both be dearer, and yet finished products of iron and steel are on the whole quoted a little lower, and the nail association is still in session to determine whether it will abandon the effort to maintain a fixed price. That branch of business is extremely slow, nothing is doing in rails, and while there is rather a better demand for sheets and plates and several good orders are reported for structural works, angles are quoted a shade lower. Everything turns on the contracts for ore, which are still unsettled, but the great excess in production of pig iron over the present demand is no longer denied, and it is expected that quite a number of the furnaces will presently discontinue production. Lower prices for Alabama iron renew competition with eastern furnaces.

Sales of wool are larger, 6,699,300 pounds for the week, against 5,236,715 last year, although a large part of the purchases is of a speculative character, based upon belief that prices may be advanced if the new tariff bill goes into effect. The opening of woolen goods shows a further tendency toward lower prices, in spite of the prevalent belief that higher prices would be realized before long if the revenue bill which passed the house should become a law. The cotton mills are generally running, though not all with full force, and some are piling up goods without regard to the immediate demand, which is comparatively slack, as they apparently believe that the short supply of cotton this year will ensure them profits in the end, as it has during the past half year. Nevertheless goods have decidedly weakened in price, quite a number of changes having been recorded during the past week.

There were 446 business failures in the United States this week, an exceptionally heavy total. Last week the aggregate was 403, in the week one year ago it was 455, and in the corresponding week of 1894, just after the panic, it was 484, while in the like week of 1893, five months prior to the financial disturbance that year, the total was only 301.

HOLOCAUSTAL ORGIES.

Two Members of a Drunken Family Burned to Death.

LYNN, Mass., Jan. 10.—Mrs. La Moire, aged 53 years, was burned to death in her home yesterday, and her daughter-in-law, Anna La Moire, aged 28, was so terribly burned that she is lying at the point of death at the hospital.

After the fire was put out the father and son were found in a closet connected with the house naked and almost unconscious from intoxication. Both were considerably burned, but not dangerously so. The police say that a lamp was upset during some sort of a fracas and that the inmates of the house were all too drunk to put out the fire. The building was not badly damaged.

Grand Army Colony Booming.

ABBEVILLE, Ga., Jan. 11.—The Grand Army colony recently started here by General Fitzgerald and ex-Governor Northern, is constantly receiving accessions. One hundred and twenty-five colonists arrived at Fitzgerald, the colony center, last night from the northwest. The old soldier town is rapidly assuming city proportions. A new weekly paper, The Leader, will be started next week by B. F. Knapp & Son. It will be Democratic in politics, but will eliminate political discussions and treat of industrial matters only.

Big Reduction in the Gold Reserve.

WASHINGTON, Jan. 11.—The treasury yesterday lost \$1,630,000 in gold, of which \$1,250,000 was for export. This leaves the true amount of the gold reserve \$50,100,164. The treasury department yesterday began the task of sending to each postmaster in the United States a copy of Secretary Carlisle's circular of Jan. 6 asking for proposals for the purchase of the new bonds. By direction of the postmaster general these notices are to be posted in a conspicuous place in each office.

A Double Assignment.

RICHMOND, Ky., Jan. 11.—Jacob Hackett, farmer, and T. B. Hackett, saloonist, assigned here yesterday at noon to James Noland and J. B. Stonifer for \$25,000 and \$16,000 respectively. Abilities not known. They are brothers.

VENEZUELA AFFAIRS.

Political Excitement Is Still at Fever Heat.

THE WAR SENTIMENT GROWING.

An Anti-English Strife at Valencia Results in Several People Being Injured. Newspapers Urging the Government to Send Troops to the Front. Political Arrests Continue to Be Made.

NEW YORK, Jan. 11.—The World's copyrighted Caracas (Venezuela) dispatch says:

The political excitement is unabated. Senor Bricano, editor of El Patriota, has been arrested, together with other partisans of Andueza Palacio.

The newspapers here are discussing the possibility of a British warship in the harbor of La Guayra being able to throw a shell over the mountain into the city of Caracas. To quiet apprehension in regard to it the matter has been submitted to expert engineers here. Their opinion is awaited with considerable anxiety. During the last revolution, the American Admiral Walker, on board the flagship Chicago, after studying the question declared that it was impossible because the guns could not be elevated enough.

The anti-English manifestations continue. At Valencia yesterday the Venezuelans divided themselves into two parties—one representing English invaders and the other the patriots—and began a sham fight. Those on the Venezuela side became so excited that they went at it in earnest, with the result that several who were enacting the role of Englishmen received severe stab wounds. The police had to be called in to stop it.

Dispatch to the New York Herald.

NEW YORK, Jan. 11.—A dispatch to The Herald from Caracas, Venezuela, says: General Domingo Sifontes, who was in charge of the Yuruan district at the time Sergeant Barnes was arrested in Ciudad Bolivar on the accusation that he has been mixed up in the latest rebellion. It is alleged that he has received letters from Dr. Hernandez of New York, showing the existence of a plot against the government. Sifontes is a spiritualist.

Newspapers here are urging the government to send troops to the frontier to head off the English. The Liberal papers say enough militia can be spared for that purpose, and if the British obtain a foothold in the disputed territory it will be hard to dislodge them.

El Tiempo says the quicker troops are sent the better it will be.

BANK ROBBED BY BURGLARS.

About \$9,000 Secured From the Farmers' at Verona, Mo.

MONETT, Mo., Jan. 11.—Eight masked men dynamited the safe of the Farmers' bank at Verona, eight miles east of this city, yesterday morning at 4 o'clock, and escaped with \$9,000 in cash, all contained in telegrams from Cashier Fly state that the robbers made their escape, riding in the direction of Monett. They are supposed to be professional.

They entered the city on horseback, secured eight watchmen Hoover and bound him to a tree across the street. They then easily forced the front door of the bank and in a short time literally blew the vault and safe to pieces with dynamite.

FIGHT IN COURT.

A Lawyer With a Gun in His Desk Overpowered.

CHATTANOOGA, Jan. 11.—When county court opened yesterday morning an exciting scene occurred. Judges Holtzclaw and Springfield had had a row during the session of its previous day, and the court was informed that Holtzclaw had a pistol in his desk.

The county judge ordered it removed and sent Constable Toer to get the gun. Judge Holtzclaw fought for the possession of the weapon, but he was overpowered, and the desk at which he sat was taken from him until the gun could be removed. Holtzclaw said that he had put the pistol in his desk to defend himself, and he proposed to use it.

DASTARDLY DEED OF HIGHWAYMEN.

Their Victim Placed on the Railroad Track and Was Horribly Mangled.

DELAWARE, O., Jan. 11.—Auditor John J. Ramage of this county was attacked last night by highway robbers and seriously dealt with. As he was going home a company of men approached him at a dark place and waylaid him.

After taking a large amount of money and a gold watch from him, he was carried and put on the railroad track, where a train soon came along and cut off his left arm and horribly mangled his right leg and other parts of his body. The highwaymen have not been apprehended.

Protected His Mother.

RUSHVILLE, Ind., Jan. 11.—Edward Johnson, deputy postmaster of New Salem, who shot and wounded James A. Williams, a farmer of that section, has been released by the prosecutor. Mrs. Johnson, mother of the defendant, is the postmistress, and several months ago Williams, while intoxicated, attempted to enter the Johnson home. Mrs. Johnson was protected by her son, and when Williams made a second effort he was shot.

INDICATIONS—Partly cloudy weather with snow flurries or light showers near the lakes; slowly rising temperature; easterly, shifting to westerly winds.

In the Senatorial contest now on an Frankfort, Hon J. C. S. Blackburn has the Democratic nomination won and Dr. Hunter is forcing the fighting on the other side. Blackburn and his friends are confident of his election, although the Legislature is thought to be a tie on joint ballot.

PEOPLE who imagine they can buy goods cheaper elsewhere than in Maysville are simply mistaken, or not well posted. In every line of business the prices are just as reasonable here as they are anywhere. In buying here you deal with men you know, and who don't misrepresent their goods.

The Philadelphia Ledger is moved to remark that the Republican majority in the House seems to be as little inclined to put the finances of the country on a sound basis as a band of Populists would be. Alarmed by the opposition in their own party to a project for a definite retirement of the mischievous greenbacks, the majority of the Committee on Ways and Means adopted an amendment especially providing that the greenbacks should not be retired, but that the cause of the depletion of the gold reserve should be kept active. If the Republican majority in the House dare not vote for sound money there is little hope of getting relief from any source until a few more disastrous experiments with the currency have been tried.

On yes, free wool is just paralyzing the woolen industry of this country. The Republicans say so, and of course the Republicans never lie. However, here are some statements they will have to explain—if they can. The Philadelphia Times says: "The Fall River woolen and cotton mills are quite satisfied with the present tariff if the earnings and dividends of the past year are any index to prosperity and the practical truth of what free raw material will do when given a chance. The various establishments had the most prosperous period in their history. The annual statement of dividends paid shows a percentage of 8.09 on a capitalization of \$21,268,000, the dividends amounting to \$1,721,425. The Fall River manufactory modernized its plant and paid the bills from its earnings. The mill that lost suffered that loss through the defalcations of its treasurer, and the Bourne Mill not only paid a profit-sharing dividend of 7 per cent. but a stockholders' dividend of 19 per cent. And the story of the Fall River mills is the story of all the other manufacturing centres of New England."

For the Farmer. This is a good season to overhaul your farming implements and get everything in good shape.

A Wiggins, of Nicholas, sold six hog-heads of tobacco at Cincinnati this week at prices ranging from \$10 to \$13.75.

"Talk about abandoning sheep," says the Chicago Breeder's Gazette, "do you know that while cattle, hogs and corn have been at the toboggan slide all through 1895 fat sheep, lambs and wool finished the old year worth as much ready cash in the Chicago market as they were at the beginning of it? It has been a year of general liquidation, and it looks as if the flock had passed through the ordeal better than any other kind of farm stock."

JAMES R. THOMAS and Miss Sudie Belle McIntosh, a Fleming County couple, came down early this morning and were married by Rev. Jacob Miller.

THE Aberdeen Building and Loan Company has elected the following officers for the ensuing year:

President—G. W. Schiltz.
 Vice President—M. C. Ellis.
 Treasurer—Dr. T. Heaton.
 Secretary—A. T. Boswell.
 Assistant Secretary—John L. Purdon.
 Solicitor—Jesse Ellis.

The company had a very successful year in 1895.

The Ideal Panacea. James L. Francis, Alderman, Chicago, says: "I regard Dr. King's New Discovery as an Ideal Panacea for Coughs, Colds and Lung Complaints, having used it in my family for the last five years, to the exclusion of physician's prescriptions or other preparations."

Rev. John Burgess, Keokuk, Iowa, writes: "I have been a Minister of the Methodist Episcopal Church for fifty years or more, and have never found anything so beneficial, or that gave me such speedy relief as Dr. King's New Discovery." Try this Ideal Cough Remedy now. Trial bottles free at J. James Wood's drug store.

THE MAYSVILLE MAN.

County Attorney Adair in the Hands of an Interviewer at Cleveland, Ohio.

(Mt. Olive Tribune Democrat.)

People are always glad to hear of the success of an old friend and neighbor, so the Tribune Democrat will be pardoned for reprinting the following from the Cleveland, Ohio, Leader, of Dec. 31st, about the Hon. Geo. W. Adair, of Maysville, formerly of this place. Mr. Adair is employed by the Case heirs of this State to look into their interest in the vast Case estate at Cleveland. Colonel Adair was at Cleveland the other day, and like all men of any prominence, was soon cornered by the irrepressible newspaper reporter. Col. Adair, with becoming modesty, did not say very much, but a portion of what he did say is found below. After talking at some length on his business in the city he was touched upon politics. Here is what the Leader says:

"Although the Colonel was opposed to talking further on the subject of the estate, he brightened up and went on at a merry rate when questioned on the political situation in Kentucky. Colonel Adair is a man who weighs 220 pounds without his overcoat, and is what the Southerners call a 'sympathetic Republican.' He is a grandson of Governor John Adair, who was at the head of Kentucky affairs in 1820. The Colonel was elected prosecuting attorney of the Nineteenth judicial district at the last election, overcoming a Democratic plurality of 3,500 and scoring a plurality of his own of 225. He is prominent in Kentucky politics, and has been put up by his friends as a candidate for district delegate to the St. Louis convention. He thinks that Kentucky has gone Republican to stay. At least he will be surprised if it goes otherwise inside of twenty-five years.

"Personally Colonel Adair is friendly to Reed. He does not prophesy his own election as delegate, but already yields the place to another. 'Kentucky is for McKinley,' said Col. Adair. 'It will go for McKinley. The whole South is in line for Ohio's Governor, and in my opinion will stay with him.'

"Before General Harrison was nominated his friends called Colonel Adair into conference with them and asked his opinion regarding the attitude of the South. He accurately stated it, and ever since has been regarded as splendid authority on Southern political movements. 'The people feel,' said he, 'that a change is needed, and that McKinley is the man to bring it about. Whether or not the bad times were due to the present administration, the people down South think so. McKinley has a great following in the South.'

"Colonel Adair would like to see Gov. Bradley nominated for the Vice Presidency, but does not think that the Governor has given his consent to the agitation in his behalf."

Recommends Itself

"Hood's Sarsaparilla adapts itself to the sick and well alike. To the sick it is a sure cure and to the well it is the best safeguard against sickness. My children were weak and puny. Two of them had catarrh. Hood's Sarsaparilla cured them after other remedies failed. I, myself, had been dyspeptic for twenty years and sought relief in vain. I resorted to

Hood's Sarsaparilla and have been built up in health. It cured my stomach trouble and my weight has increased from 112 to 140 pounds. Try it, you sufferers from Maine to California and from the North to the Gulf. Hood's Sarsaparilla will do you good." D. P. SMITH, Justice of Peace, Mountain Creek, North Carolina. \$1; six for \$5.

THE GOVERNOR'S MESSAGE.

It's a Very Long One and He Makes a Great Many Recommendations and Suggestions.

Governor Bradley's message was read to both branches of the Legislature Friday. It is a lengthy document, so long in fact that after listening to it, the lawmakers didn't have much time left for the transaction of any other business. The Governor makes many recommendations and suggestions.

He declares in favor of new State buildings and wants the convicts to be employed in erecting these buildings.

The new election law, he thinks, could be improved on in many features. Where registration is required, the right to ask the voter's party affiliation, he thinks should be stricken out. He suggests the party device should be placed at the head of the ticket and a square beneath and entirely disconnected from it, and the cross mark required to be made therein.

In order to reduce the expenses of criminal prosecutions in misdemeanor cases he advises that jurisdiction of this character of prosecutions, when the maximum of fine is under \$500, or maximum of imprisonment is under one year, be transferred to the Judges of Quarterly Courts, and the concurrent jurisdiction of Justices and Police Judges. He wants something done also to limit the action of officers in the indiscriminate summoning of witnesses in criminal cases. "In many instances," he says, "persons are arrested on the charge of grand larceny when they are known to be guilty only of petit larceny, and in this way large sums are annually collected from the treasury for arrests and witnesses. The enactment of a law is recommended requiring an affidavit to be made, plainly showing that the offense charged is grand larceny, before any order of arrest or subpoenas are issued."

Along this line he also recommends that the law be changed so that juries shall simply say whether the accused in criminal cases is guilty or not, the court then to fix the penalty.

The Governor also recommends that the offices of Commonwealth's Attorney, Register of Lauds, Commissioner of Agriculture, and the State Board of Equalization be abolished.

A house of reform should be established for youthful criminals.

The Governor advises the Legislature to pass a law to punish the authors of fake news and libels. On this point he says: "Of late numerous untruthful stories concerning the commission of crime in Kentucky have been giving currency by unprincipled correspondents, all to the great detriment of the State. I recommend, in order to restrain these irresponsible persons, that a law should be passed providing severe punishment of all persons who willfully state, deliver or transmit to any manager, editor, reporter or other employee of any newspaper, magazine, publication, periodical or serial, any falsehood concerning any person, corporation or community."

The Judicial apportionments he thinks are very unfair and unjust, and ought to be changed.

Those are only a few of the many recommendations made in the message.

In Olden Times

People overlooked the importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently cure habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

THE examining trial of Harvey Workman, at Brooksville, for killing his son-in-law, Wm. Workman, resulted in his being held in sum of \$2,500 to answer at the next term of the Circuit Court. Colonel R. K. Smith and W. J. Osborne, Esq., are his attorneys. He proved that the deceased had, more than once, threatened to take his life and also that of his daughter, Matilda Workman. But the immediate circumstances surrounding the killing were against the defendant.

THE sick man knocking at the door of health gets in if he knocks the right way, and stays out if he doesn't. There are thousands of ways of getting sick but only one way to get well. Do whatever you will, if you do not put your digestion in good order, and make your blood rich and pure, you will not get well. Rich, pure blood is the only thing that can bring perfect health. Constipation is a disease of the blood. A large part of all diseases are traceable directly to impurities in the blood, and can be cured by eliminating them with Dr. Pierce's Golden Medical Discovery. The first thing it does is to put the whole digestive system into perfect order. It stimulates the appetite, excites a copious secretion of the digestive fluids and promotes assimilation. It searches out disease germs wherever they may be, kills them and forces them out of the system. The Golden Medical Discovery has been used with unvarying success for over thirty years.

BRINEGAR'S ACCOUNT

Of That Shooting Near Orangeburg. Claims That Warder Fired First.

A warrant was sworn out in 'Squire Bramel's court last night for Hiram Warder, charging him with shooting and wounding John Brinegar with intent to kill. It will probably be executed to-day.

Brinegar has six or eight buckshot wounds—one in the shoulder, one in the neck and the others in his chest and abdomen. It is feared his bowels were perforated. The chances are thought to be against his recovery.

The shooting occurred at Warder's home, as stated in the BULLETIN yesterday, but Brinegar's side of the story is quite different from that already published. From one of his friends it is learned that he and Washburne have been afraid some time that Warder would do them injury; so much so, in fact, that their wives would not let them start out unless they went together.

The claim is made that it was necessary for them to pass Warder's house to reach the pike or road. Brinegar claims Warder opened the back door as they were passing and shot him. He attempted to return the fire but both caps snapped. As they reached the front of the house Warder again appeared, and Brinegar, having reloaded his gun and fearing that Warder intended shooting again, fired at him.

At Louisville the case of the Commonwealth against George W. Smith, editor of Justice, the A. P. A. paper, on an indictment for criminal libel on information furnished by R. Lee Suter, was dismissed. Mr. Smith made a written retraction of everything he said about Mr. Suter.

DURING the action of "The Prize Winner," which will be seen here next Monday night, Mr. Gardner will sing his celebrated songs, "The Turner's Triumph," "A Butterfly Song," "The German Flower Girl," "Gesundheit" and "Wedding Bells," and not to be forgotten, the popular "Apple Blossoms," which has become as great a favorite as his celebrated "Lilacs."

THERE are six persons in the Bracken County jail, two or three of whom are desperate men. The Review says: "Jailer Jefferson has been watching them closely and Sunday he discovered, hidden in a mattress a case knife that had been hacked into a saw blade. He also found a bunch of nails tied in the end of an old sock, which they evidently intended to use as a weapon to knock him down and force an exit through the door, in case they failed to saw their way out."

GOOD FOR EVERYBODY

and everyone needs it at all times of the year. Malaria is always about, and the only preventive and relief is to keep the Liver active. You must help the Liver and the best helper is the Old Friend, SIMMONS' LIVER REGULATOR, the RED Z.

Dr. C. Himrod, of Lancaster, Ohio, says: "SIMMONS' LIVER REGULATOR broke a case of Malarial Fever of three years' standing for me, and less than one bottle did the business. I shall use it when in need, and recommend it."

Be sure that you get it. Always look for the RED Z on the package. And don't forget the word REGULATOR. It is SIMMONS' LIVER REGULATOR, and there is only one, and every one who takes it is sure to be benefited. THE BENEFIT IS ALL IN THE REMEDY. Take it also for Biliousness and Sick Headache; both are caused by a sluggish Liver.

FARMER SHOT BY HIS SON-IN-LAW.

The Assassin Pursued by a Posse and Killed With Bullets.

LOCKPORT, N. Y., Jan. 11.—Robert Clapsaddle, a farmer of Ransomville, a small town about 10 miles from here, was fatally shot yesterday by his son-in-law, George H. Smith, who was pursued by a posse of villagers, cornered, and when he made resistance, filled with bullets, causing his death. One of the pursuers also was shot.

Farmer Clapsaddle lived a mile south of the village, with his wife, a daughter and a grandchild, 12 years old, the son of the murderer. Smith was a dissolute fellow, who spent what money he could get for whisky. He had married the eldest daughter of the Clapsaddles, and she had separated from him on account of his dissipation, and Smith had always blamed his father-in-law for the estrangement. Yesterday afternoon Smith came into the Clapsaddle homestead, where the old man sat reading his paper, and without warning or provocation, drew a revolver and shot Clapsaddle through the head. Before an alarm could be given the assassin had made his escape. Mr. Clapsaddle died soon after the arrival of a doctor, never regaining consciousness.

A posse was formed, with a deputy sheriff at the head, to hunt down the murderer. Smith had fled across the county toward the home of his wife's second husband, Dechite, probably with the intention of committing another crime. He was armed with a revolver and had his pockets filled with cartridges. The posse was composed of over half a hundred reputable men and neighbors of the murdered man. When Smith saw the posse in pursuit, he made for the house of a man named Brown and as he entered the door, he turned and brandishing the revolver cried: "The first man who follows me in here I will shoot."

Undaunted the posse closed in around the house, when Brown, coming to the poor, told them that Smith was in hiding in one of the closets. Thereupon Elmer Clapsaddle, a relative of the murdered man, cried to Smith to come out and surrender. Smith responded with a bullet, which entered Clapsaddle's wrist. This aroused the crowd and they fired through the walls of the house at short range into the spot where Smith was evidently standing. There was a sound as of a falling body which showed the shots had taken effect. Smith was found to be fatally injured, bleeding from a dozen wounds.

PROCEEDINGS OF CONGRESS.

The Senate Sends Congratulations to President Kruger.

WASHINGTON, Jan. 11.—The debate on the senate free coinage substitute for the honso bond bill was opened yesterday by Senator Jones of Arkansas, in a two hours' speech, which was followed with close attention by senators on both sides of the chamber. Mr. Jones took strong ground in favor of the free and independent coinage of silver contending that that was the only method by which the distress in the country could be alleviated and the treasury department relieved from its present dependence upon the speculative holders of gold. There was no reply to Mr. Jones' argument, but the debate will be resumed when the senate meets again on Monday.

During the morning hour Mr. Pritchard, Rep., N. O., made a speech in favor of the reenactment of the McKinley

law and Mr. White (Dem., Cal.) made some remarks in favor of amending the rule of the senate so as to give the majority the power to bring a measure to a vote whenever it saw fit.

At the conclusion of Mr. White's speech, Mr. Morgan (Dem., Ala.), formerly chairman of the committee of foreign relations, introduced a joint resolution congratulating the republic of Transvaal in Africa for the stand for liberty which it had taken, and directing the president of the United States to transmit the action to the republic of Transvaal.

It was referred to the committee on foreign relations.

In the House

WASHINGTON, Jan. 11.—The house gave its time to a discussion of the proposed amendments of the rules of the Fifty-first congress which were provisionally adopted early in the session to govern the house after a long discussion the rules of the Fifty-first congress were adopted.

General Harrison's Summer Cottage

ROME, N. Y., Jan. 11.—Ex-President Harrison, who spent a portion of last summer at Dodd's Camp First Lake Fulton Chain was so well pleased with the North woods that he has bought of Dr. Seward Webb about 25 acres of land at the point where First and Second Lakes join, and will build a cottage. General Harrison will build a handsome cottage which he expects to have ready for occupancy next summer. His purchase is on the south side of the lake, about three and a half miles from Old Forge and about one mile above the Dodd camp which is on the opposite side.

A Woman Frightfully Burned.

CLEVELAND, Jan. 11.—Mrs. C. A. Marshall, a widow living at 16 Mill street, was terribly burned yesterday morning while getting breakfast she poured coal oil on the fire. An explosion occurred and she was enveloped in flames. She ran screaming to the yard and when her two brothers arrived she was rolling on the ground, enveloped in flames. All the clothing was burned from her body and the flesh fell from her bones. She was taken to a hospital and can not live. Her brothers were also badly burned in assisting her.

Favor a Reduction of Hours.

CLEVELAND, Jan. 11.—The first annual convention of the National Association of Rodmill Workers is being held in this city. Delegates are present from nearly all the leading iron manufacturing centers. The most important matter under consideration is the eight hour movement. The delegates generally favor a reduction in working hours.

Senator Blackburn Nominated.

FRANKFORT, Ky., Jan. 11.—The Democratic joint legislative caucus last night nominated Senator J. O. S. Blackburn as the candidate of that party to succeed himself in the United States senate. The deciding ballot resulted: Blackburn, 37; McCreary, 13; Brown, 6.

John L. Geher Pardoned.

SPRINGFIELD, Ill., Jan. 11.—Governor Altgeld has granted a pardon to ex-Representative John L. Geher, doing five years time at Joliet penitentiary for murder during a riot at Little's mine in Tazewell county, 1894, when two men were killed and the mine burned. The governor holds Geher innocent.

TWO AMERICANS MISSING

Since Going to Russia They Have Not Been Heard Of.

NEW YORK, Jan. 11.—A cable to The Journal from Berlin says that a sensation has been created in the American colony of that city by the mysterious disappearance in Russia of two American citizens who were recently on a visit there. The names of the missing men are Homer W. Lyon, a banker of Canon City, Colo., who had an office in the Mills building in San Francisco, and Professor Novi, formerly connected with a seminary in Kentucky, but who, of late years, has been a dealer in hardware in some part of the state of Washington. His wife lives in San Francisco.

The cable message states that Professor Novi is by birth a Russian nobleman, his real name being Novossiltceff. Some time ago he inherited large estates in Russia. Having become an American citizen, he thought that an American passport would enable him to go to Russia and claim his fortune. He accordingly went there, about three months ago, leaving his children in charge of his friend Wilson, who, after waiting two months, also started for Russia, to find out what became of the professor. Fool play is suspected, as Count Novi has relatives, who want the estates to themselves. One of these is the governor-general of the province of Vilna.

The Miowera Is Safe.

SEATTLE, Wash., Jan. 11.—A special received from Vancouver states that the Warrimoo, from Hawaii, arrived at 4 o'clock yesterday, and reports as safe the Miowera, the steamship which was supposed to have been swamped while endeavoring to save the Strathnevis. The Warrimoo spoke the Miowera Jan. 2, about 100 miles south of Honolulu, bound for Australia, and all was well.

Governor Bradley's Message.

LOUISVILLE, Jan. 11.—Governor W. O. Bradley's message to the general assembly of Kentucky was laid before the two houses at Frankfort yesterday. It contained about 12,000 words, and dealt mostly with local state affairs, making recommendations for retrenchment and economy. Economy is urged in all departments.

An Arctic Rhinoceros.

A gigantic specimen of the arctic rhinoceros has lately been discovered frozen up in an iceberg which stranded at the Lena delta. This specimen was seven feet taller than the largest variety of the rhinoceros of today and was armed with two nose horns, the shortest of which was 3 feet 2 inches in length. The animal doubtless belonged to an antediluvian species of rhinoceros, and his immense size gives some idea of the enormous and terrible beasts which inhabited this planet in the "days when the earth was young." The creature's body was entirely covered with very long, thick hair, which proves that the arctic regions were his natural habitat. —St. Louis Republic.

Lightning.

The curious fact has been observed that while buildings generally are more liable to accidents from lightning during the first half of the year than during the last, barns form an exception to this rule. In attempting to account for this it has been suggested that a full barn is warmer than an empty one and that the heated and somewhat moist air rising from the straw or hay is more conducive than cooler air and "attracts" lightning.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment which rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs. Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.
